

for all of your temperature controlled packaging needs

Polystyrene Boxes | Waxed Cardboard Boxes | Foam Liners
Ice Sheets | Scallop Tubs | Packaging Sundries | Printing Solutions

About JB Packaging

JB Packaging is a leading supplier of insulated polystyrene boxes to some of the finest meat, fish and organic food producers in the UK.

Founded over 25 years ago, the company has supplied the fishing industry throughout the South West with polystyrene (EPS) boxes for the transportation of fresh fish.

In August 2007, **SCA Foam Products**, the leading manufacturer of expanded foam in the UK, acquired the assets and business of JB Packaging.

The combined businesses strengthened the company's capabilities and capacity in design, testing, customer service, logistics and manufacturing.

JB Packaging now offers a wider product range with manufacturing and deliveries throughout the UK.

Customers can be confident that they will receive the highest standards of product quality and customer service.

Polystyrene Boxes

Outstanding Insulation

Outstanding thermal and protective properties make polystyrene boxes ideal for keeping food fresh for longer.

Polystyrene (EPS) has a very low rate of thermal conductivity which keeps contents at a stable temperature regardless of external conditions.

EPS is an excellent cushioning material ideal for protecting fragile produce from shock and vibration.

Wide Variety of Markets

EPS boxes have a wide range of uses. They are commonly used for transporting meat, fish, cheese, cakes and vegetables amongst many other food stuffs.

We also supply boxes for speciality markets such as the aquatic, reptile and medical industries.

Our Range

EPS boxes are available in a wide selection of standard sizes, all with or without drainage holes. Samples are available to buy in our online shop.

Branding

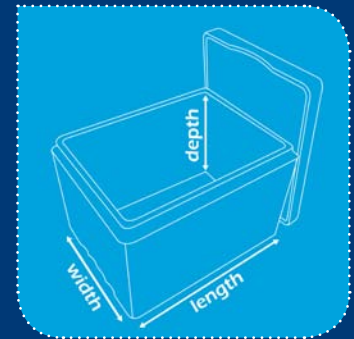

We are able to offer both box printing and printed tape subject to minimum order quantities.

EPS Box List

Refrigerant Pads

Ice packs can keep chilled and frozen products below 5°C for as long as 48 hours. Hygienic, ice packs are safe to use in direct contact with food.

Hydrated sheets save time requiring no soaking simply place in the freezer.

Non-hydrated sheets contain no water. Lightweight, made from a non-woven polyester fabric and silver laminate each cell contains an acrylate powder capable of absorbing 150 times its own weight. Simply soak in water for ten minutes and freeze.

Product Range

Foam Liners

PE Foam liners offer a space-saving alternative to EPS boxes. Supplied as a flat-packed carton with two liner pieces, the assembled pack offers comparable levels of insulation in an attractive, easy to use format.

The recyclable foam liners are also reusable, and the impermeable skin on both sides allows them to be easily wiped clean.

Size	Internal Dimensions	External Dimensions	Parcel Quantity	Pallet Quantity
Small (5 litre)	240 x 180 x 120mm	285 x 225 x 165mm	20	n/a
Medium (15 litre)	400 x 250 x 150mm	445 x 295 x 195mm	20	n/a
Large (25 litre)	370 x 270 x 250mm	415 x 315 x 295mm	20	n/a

Other Sizes? Please contact us as Foam liners can be customised to suit individual requirements.

Product Range

Waxed Cardboard Boxes

If storage space is an issue for your business, you may want to consider the flat-packed waxed cardboard box.

boxes have been waterproofed to avoid a damp soggy mess commonly seen with traditional corrugated cardboard boxes.

Whilst insulation is not as good as an expanded polystyrene box, waxed cardboard

boxes are available in four different sizes.

Samples Available Online

BOX BASES				BOX LIDS		
Size	External	Parcel Quantity	Pallet Quantity	External	Parcel Quantity	Pallet Quantity
3kg (1/2 stone)	355 x 235 x 60mm	30	1800	365 x 245 x 64mm	30	1800

Product Range

Scallop Tubs

Clean and hygienic containers keep scallops fresh for up to 5 days.

Available in either a 1kg, 2kg or 2 litre scallop tub.

Sundries

We provide a range of sundries to complete your temperature controlled packaging purchase.

Available to Buy Online

- Tape (brown, clear and fragile)
- Tape Guns (Dispenser)
- Clear plastic poly bags
- Vac bags ▪ Wax crayons
- Film (plain or perforated)
- Document Pouches
- Box liners ▪ Bubblewrap
- Carrier Bags

The Environment

Expanded Polystyrene (EPS)

EPS is more environmentally friendly than most packaging materials.

During its manufacture, EPS has significantly less impact upon the environment than cardboard in terms of air pollution, energy waste, water pollution and global warming.

The EPS manufacturing process is centred on the use of **water, air and steam**. This results in a product that

is **98% air** and contains no volatile organic compounds, hydrocarbons or other environmentally damaging compounds.

JB Packaging's EPS boxes are **fully recyclable** and unsoiled boxes can be recycled at any EPS recycling plant.

EPS can be recycled into other forms such as garden furniture, CD cases, hangers or building insulation.

Landfill is always considered as a last resort for disposal. When landfill is unavoidable, EPS remains inert, non-toxic, odour free and non-biodegradable. It does not, therefore, add to ground water spillage or atmospheric emissions.

The Environment

PE Foam Liners

PE foam liners are made from expanded polyethylene, which is also a recyclable material.

The liners need to be used with an outer carton so the packaging weight will be higher, but can be reused more than once. PE foam is non-toxic and we use material made in the UK.

For more information on the environment and the recycling of Expanded Polystyrene please visit the **[British Plastics Federation website](#)**.

Ready to Order?

Buy Online

Orders can be placed online by visiting www.jbpackaging.co.uk or by calling our friendly customer service team on freephone **0800 285 1339**.

Our online shop details of all of our products including samples, prices and pack quantities. Simply select your goods and proceed to checkout.

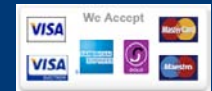

If there is a box that we do not sell, please **contact us** to discuss your requirements.

Order Processing and Delivery

Orders received **before 11:30AM** are despatched on the same day, after this time orders are despatched next day.

Pallets are shipped on 48-hour delivery as standard but we also offer 24 hour delivery for an additional charge.

All major debit and credit cards are accepted online.
